VOLUME 5 1966–68

Author Index

ALLEN, H. P. Paraquat as a tool for grassland renewal. 149.

ALTONA, R. E. Urea and biuret as protein supplements for range cattle and sheep in Africa. 22.

ANDREEV, N. G. and LJUBIMOVA, E. E. Some aspects of fertilizer application to grassland in the Soviet Union. 197.

BARRY, J. M. The synthesis of milk from components of blood. 129.

BOYD, D. A. *See* CHURCH, B. M. 191.

BREESE, E. L. Aims in herbage breeding. 110.

BRENCHLEY, G. H. Aerial photography in agriculture. 258.

BUNTING, E. S. Maize — an alternative fodder crop in Britain. 104.

CALDERBANK, A. and SLADE, P. The fate of paraquat in plants. 55.

CALDERBANK, A. and TOMLINSON, T. E. The fate of paraquat in soils. 252.

CAMPLING, R. C. The control of voluntary intake of food in cattle. 74.

CHURCH, B. M., BOYD, D. A., EVANS, J. A. and SADLER, J. I. A type of farming map based on agricultural census data. 191.

COOPER, M. MCG. In-wintering of sheep. 80.

DARTER, I. E. Weed control with paraquat in plantation crops. 208.

DEVENDRA, C. Animal production and improvement in Malaya. 167.

EVANS, J. A. *See* CHURCH, B. M. 191.

GIMESI, A. Dodder eradication with 'Reglone'. 28.

HARBOURNE, J. F. Risks associated with intensive animal production. 35.

HEMINGWAY, R. G. Phosphorus and the ruminant. 172.

HOARE, E. R. Irrigation in semi-arid regions. 139.

HORNE, F. R. British fodder crops, excluding maize. 95.

HUFFMAN, E. O. The reactions of fertilizer phosphate with soils. 202.

JONES, F. G. W. and PARROTT, D. M. Potato production using resistant varieties on land infested with potato cyst-eelworm, *Heterodera rostochiensis Woll.* 215.

LJUBIMOVA, E. E. *See* ANDREEV, N. G. 197.

MIDDLETON, K. R. and PUSHPARAJAH, E. The use of phosphates in the cultivation of *Hevea brasiliensis in Malaya.* 69.

MURDOCH, J. C. Grass silage. 17.

MU TSUNG-JU *See* WANG SHOU-CHUN. 85.

PARROTT, D. M. *See* JONES, F. G. W. 215.

PAYNE, J. M. Milk fever. 266.

POLGE, C. Recent advances in controlled breeding of pigs. 44.

PUSHPARAJAH, E. *See* MIDDLETON, K. R. 69.

RAYMOND, W. F. Studies of herbage digestibility by an *in vitro* method. 60.

RICHARDSON, H. L. The Freedom from Hunger Campaign — five years of the F.A.O. Fertilizer Programme. 3.

ROTHBAUM, H. P. Red phosphorus as a possible fertilizer. 123.

SADLER, J. I. *See* CHURCH, B. M. 191.

SHEAR, G. M. The development of the no-tillage concept in the United States. 247.

SLADE, P. *See* CALDERBANK, A. 55.

STANIFORTH, A. R. An evaluation of extension methods in the early stages of a project on vacuum compression silage. 117.

STRANAK, A. Soil compaction and direct drilling of cereals. 241.

SYKES. A. H. Controlled egg production in poultry. 223.

TANNER, C. C. Diet, nitrogen and standard of living. 234.

TERRY, R. A. *See* RAYMOND, W. F. 60.

TOMLINSON, T. E. *See* CALDERBANK, A. 252.

WANG SHOU-CHUN and MU TSUNG-JU Cotton and wheat from the saline soils of North Honan. 85.

WATSON, MARION A. Epidemiology of aphid-transmitted plant virus diseases. 155.

WINTER, E. J. Irrigation of vegetables in Britain. 144.

Book Reviews

ALTONA, R. E. Soil Fertility. 186.

Subject Index

Editorials. 2, 54, 94, 138, 190, 234.

Animal production
intensive, risks associated with. 35.
herbage digestibility. 60.
voluntary intake, cattle. 74.
in-wintering of sheep. 80.
Malaya. 167.
phosphorus and the ruminant. 172.
Aphids
transmission of plant-virus diseases. 155.
Apples
weed control with paraquat. 212.

Bananas
weed control with paraquat. 210.
Barley
F.A.O. Fertilizer Programme. 6.
effect of soil compaction on yield. 241.
Beans
F.A.O. Fertilizer Programme. 10.
Biuret
protein supplement. 22.
Broome rape (*Orobanche*)
eradication with 'Reglone.' 32.

Cabbage
F.A.O. Fertilizer Programme. 10.
Cattle
non-protein nitrogen. 22.
intensive production, risks. 35.
control of voluntary intake. 74.
production and improvement, Malaya. 168.
phosphorus balance. 172.
milk fever. 266.
Citrus
weed control with paraquat. 210.
Cocoa
weed control with paraquat. 210.
Coconut
weed control with paraquat. 209.
Coffee
F.A.O. Fertilizer Programme. 6.
weed control with paraquat. 209.
Cotton
North Honan, saline soils. 85.
Czechoslovakia
soil compaction. 241.

Diet
nitrogen and standard of living. 235.
Direct drilling
soil compaction. 241.
no-tillage concept in U.S.A. 247.
Dodder
eradication with 'Reglone.' 28.
morphology. 29.

Extension methods
evaluation of, in vacuum silage project. 117.

Farming
type of farming map based on census data, England and Wales. 191.
Fertilizers
Freedom from Hunger Campaign. 3.
phosphates on *Hevea*. 69.
red phosphorus. 123.
application to grassland, Soviet Union. 197.
reaction of phosphates with soils. 292.
Forage crops
F.A.O. Fertilizer Programme. 10.
digestibility *in vitro*. 60.
British fodder crops. 95, 104.
Forestry
weed control with paraquat. 213.
Freedom from Hunger Campaign
five years of F.A.O. Fertilizer Programme. 3.

Goats
breeding and improvement, Malaya. 169.
'Gramoxone.' (*See* paraquat).
Grass
silage. 17.
fodder crop, Britain. 96.
aims in breeding. 110.
Grassland
renewal of, using paraquat. 149.
Groundnuts
F.A.O. Fertilizer Programme. 8.

Herbage
digestibility. 60.
aims in breeding. 110.
phosphorus content of, and the ruminant. 172.
Hungary
'Reglone' for dodder eradication. 28.

'Reglone' for broome rape eradication. 32.
Irrigation
semi-arid areas. 139.
Britain. 144.
Maize
F.A.O. Fertilizer Programme. 6, 7, 9.
Malaya
phosphates in cultivation of *Hevea*. 69.
animal production and improvement. 167.
Map
type of farming map, based on census data, England and Wales. 191.
Methalibure (ICI 33828)
controlled breeding of pigs. 46.
controlled egg production in poultry. 225.
Milk
synthesis of, from components of blood. 129.
milk fever. 266.
Millet
F.A.O. Fertilizer Programme. 8.

Nitrogen
F.A.O. Freedom from Hunger Campaign. 3.
diet and standard of living. 235.
Nutrition
diet, nitrogen and standard of living. 235.
North Honan
cotton and wheat from saline soils. 85.

Oil Palm
weed control with paraquat. 209.

Paraquat
fate of, in plants. 55.
tool for grassland renewal. 149.
weed control in plantation crops. 208.
fate in soils. 252.
Phosphates
in cultivation of *Hevea*, Malaya. 69.
comparison with red phosphorus. 123.
reaction with soils. 202.
Phosphorus
red phosphorus as fertilizer. 123.
phosphorus and the ruminant. 172.
milk fever. 17, 178.
Photography
aerial, in agriculture. 258.
Peaches
weed control with paraquat. 212.
Pears
weed control with paraquat. 212.
Pigs
intensive production, risks. 36.
controlled breeding. 44.
production and improvement, Malaya. 167.
Plantation crops
phosphates in cultivation of *Hevea*. 69.
weed control with paraquat. 208.
Potatoes
F.A.O. Fertilizer Programme. 6, 9.
potato cyst-eelworm, varietal resistance to. 215.
Poultry
risks associated with intensive production. 40.
production, Malaya. 170.
controlled egg production. 223.

'Reglone'
dodder eradication, Hungary. 28.
Revolutionary change. 2.
Rice
F.A.O. Fertilizer Programme. 6, 8, 9.
Rubber
use of phosphates in Malaya. 69.
weed control with paraquat. 208.
Rye
effect of soil compaction on yield. 241.

Sheep
non-protein nitrogen. 22.
in-wintering. 80.
Silage
principles. 17.
vacuum compression, evaluation of extension methods. 117.
Soils
saline, North Honan. 85.
compaction, Czechoslovakia. 241.
fate of paraquat in. 252.
Sorghum
F.A.O. Fertilizer Programme. 8.
South Africa
urea, biuret as protein supplements. 22.
Soybeans
F.A.O. Fertilizer Programme. 10.
Soviet Union
fertilizer application to grassland. 197.
Sugar cane
weed control with paraquat. 213.

Tea
weed control with paraquat. 210.

Urea
protein supplement. 22.

Vegetables
irrigation of, in Britain. 144.
Vines
weed control with paraquat. 212.
Viruses
aphid-transmitted plant virus diseases, epidemiology. 155.

Water
requirements of crops in arid regions. 140.
Wheat
F.A.O. Fertilizer Programme. 90.
North Honan, saline soils. 85.
effect of soil compaction on yield. 241.

Yams
F.A.O. Fertilizer Programme. 8.
